# THE FOUR GOSPELS

BY

DR. M. DOREAL

A NEW SPIRITUAL AND OCCULT IN-  
TERPRETATION OF THE TEACHINGS  
OF JESUS AS FOUND IN THE GOS-  
PELS, AND OTHER SOURCES.

This interpretation of the FOUR GOSPELS, Matthew, Mark, Luke, and John, is the answer to the crying need of the Age for a comprehensive explanation of the Teachings of Jesus. It gives the TRUE teachings as they were originally taught, and it explains away the many ERRORS which have crept into the modern versions due to interpolation, numerous translations and later attempts at revision to fit special doctrines.

"THE FOUR GOSPELS" explains the "Mysteries" behind the sayings of Jesus. The time is at hand for the "hidden things" about the life of Jesus and His Teachings to be made clear. The Secret Teachings of Jesus need no longer remain obscure. Dr. Doreal has so simply and clearly explained the Four Gospels that anyone can perfectly understand the wonderful message of Truth the Master Jesus came to give.

# BROTHERHOOD NEWSLETTER

Dear Students and Friends:

The weather here over the week-end was very nice and the Spaghetti Dinner prepared by the Shamballa Fire Flies had a good turn out. The evening was quite cool and this must have sharpened most everyone's appetite as most of the dishes and plates were returned empty after having been served with generous portions.

The Sunday Temple Services were also well attended and we were happy to have Dr. Edward Plass give the afternoon Service. Dr. Plass is a Brotherhood member and a practicing minister from Denver and this was the first lecture he has given here at the Brotherhood Headquarters.

The fall colors are beginning to show more each day on the mountains here. The scrub-oak leaves are changing very quickly this year. There are several shades of yellow now and in a few days there should be some shades of red showing up. This is usually the most colorful season of the year here, but due to the early snow and freezing temperatures the colors are not expected to be as vivid or last as long as usual. Many of the leaves have already turned brown and are starting to fall.

The comment most often repeated by visitors to the Retreat is how peaceful and quiet it is here. One of the obstacles to meditation for many students is the noise of the cities and highways and here the absence of most of those noises makes it appear that the largest obstacle no longer exists. However one soon finds that the external noises and interference are nothing compared to the noises and turmoil that exist in the mind and consciousness. It is in the quiet and peaceful places where one can enjoy the natural beauty of nature that peace of mind may be brought about more quickly as there is less external disturbance.

The student of Truth has learned that the only way to reach the Christ Consciousness is by attuning himself to that higher state of consciousness which holds no disorder. The clear quiet pool reflects light without distortion and the student learns that when the inner turmoil is overcome the light of God is not only perceived, but is also reflected and radiated to the conditions around him.

# KNOWING THE FUTURE

Our God within - All-knowing, wise  
Has planned with care his way;  
Thus we will learn our lessons best  
Not knowing day to day.

If we could see the joys ahead  
When we will be attuned  
We might not try to work as hard  
For what we'll earn so soon.

The purpose then would be destroyed;  
Our fruits would not be sweet,  
If we could know what lies beyond  
The trials that we meet.

# THE POWER THAT WINS

BY

DR. M. DOREAL

(Part three)

The trouble with so many of us is when we try to demonstrate, we form the consciousness of needing but not the consciousness of having. A person comes and says, "I must have this. I am going to demonstrate that". It is when you cease from demonstrating and becoming conscious of having, that you have. It is an absolute fact that beyond the needs of living which are an inherent right of man, and which, if he realizes, will always come to him in some manner, beyond the necessity of actual living, prosperity in the world is not gained until we gain the consciousness of having a thing.

A very successful man whom I know, has never had a failure, everything that he touches turns to gold - he can enter into something that has been a flat failure and turn it into success - he told me one time, "When I start to do a thing, I think of it as being accomplished, the minute I take hold of it". That man was working the law without exactly knowing what was being done. He knew when he took hold of anything that it was going to be a success, so any of us when we start doing a thing use our own power.

That is what jesus meant when he said, "If ye have the faith of a grain of mustard seed and shall say to yonder mountain, go thou hence and be removed, it shall straightway be done." The same faith that moves mountains can move the condition in our life, but we have to have created in our own consciousness the knowing of the accomplishment. As long as we are trying we do not make it.

This is the reason there are so many failures in life, because, though it is true that different people have different values so far as material success is concerned, some people would think that if they were making a hundred dollars a month they were successful, while others would not. This is a picture of the different values which we place upon ourselves, and let me tell you this: that the Divine places upon you the value that you place upon yourself, no more or less. If you have the consciousness of lack of ability you cannot get anywhere.

Almost every day some student comes to me and says, "I would like to go into the deep things and study them but I am conscious of my lack of education and I cannot do anything because I just do not have the education." After all, it is our consciousness of lack which prevents us from having. Education is nothing more or less than accumulation and corelation of facts. If we have the desire and will we do not have to

have someone correlate and accumulate those facts for us. If you will note very carefully, some of the most successful men in the world are those who have had no formal education. Did Thomas Edison have, and yet, he had several hundred college graduates working in his laboratory for him. How much formal education did Andrew Carnegie have? How much did John D. Rockefeller have? How much formal education did Chas. Schwab have? Not as much as most of us. Yet, that did not create success. The reason I mention this is because so many people think that going to school for so many years determines success or failure. It does not. It is the consciousness of your power to succeed.

In the East, in speaking of spiritual attainment, they say this; "That the path and goal are within yourself and the path and the goal are one." That which holds true of Spiritual attainment holds true also of material attainment. The path and goal are within ourselves, but the trouble is we think the path and goal are hidden from us, and we are always trying to reach it instead of becoming one with it.

We read in the Bible where God says, "Even in the midst of hell there am I", but we separate ourselves from that Divine Spirit because of our consciousness of separation. In the same manner in the material world we, because of our lack of consciousness of having, and of perfect manifestation,

lack the power to win in life. We fail rather than succeed.

I knew two fellows in Oklahoma City both started out in exactly the same kind of job. It was when oil fields were beginning to boom there and they were using those steam boilers that rusted quickly. They use a chemical agent to clean them with. Both those men went to work for an Eastern chemical company. I talked to one of them and he said, "This is a wonderful product. They need it; they have to have it. This time next year I will have the business of this oil field corralled." I talked to the other fellow and he said, "I do not know but I am going to try it. It may not be any good." Next year I talked to them again and one had become manager for the company and was making a quarter of a million dollars a year and the other was working for him. One produced because he had the consciousness that he was going to do it. The other failed because all he was conscious of was a living and that was what he got out of it. The consciousness that we put into what we are doing determines our success or failures.

I have always known that man has the power to manifest anything. The trouble is to get man to realize that. The teacher has the hardest job in the world if he makes it hard. He can make it easy if he will, or he can make it so hard that it is impossible for him to accomplish anything. I know that there

are certain material laws that we can use because there is a material prosperity and spiritual prosperity. I know exactly how I can use certain laws so that instead of having two hundred people at my lectures I would have 40,000, but the use would teach them something which would be wrong for them to receive.

Everything lies within our consciousness and we can attract to ourselves our own, if we will. Many people seek spiritual prosperity. They want to accomplish Divine attunement with the Universal Consciousness and yet, they fail. Why? Because they are conscious of spiritual lack in themselves. It is only when we eliminate consciousness of spiritual lack and gain the consciousness of spiritual prosperity that we gain that power. It is a very simple matter too. It is a matter of thinking right, and that thinking right means more than just forcing into our mind the thought that we are going to do a thing. You can hold your thought on prosperity but that is not enough. The consciousness of a thing is different from thinking of it. A lot of people have thought what they would do if they had a million dollars and never got it. The same thing is true in gaining anything whether it be material things; health, mental powers or spiritual powers. There is only one power that wins, and that is, when we can become in our own inner self absolutely conscious of the manifestation of that thing.
